Miguel Guerrero

AI Engineer | Tech4Good | Acumen fellow
Barcelona, Catalonia, Spain

Summary

Artificial Intelligence for All \Leftrightarrow Artificial Intelligence for Good
AI4All AI4Good

Experience

La Moncloa

AI Advisor

2025 - Present (less than a year)

in Spain's Office of the Prime Minister, spearheading the initiative:
Community, Applications, and Infrastructure to accelerate AI transformation.

Saturdays.AI

Founder

2018 - Present (7 years)

Making Artificial Intelligence accessible to everyone #ai4all, while building
social impact projects #ai4good.

We run in-person, part-time, applied machine learning bootcamps, where
participants build social impact, open-source AI projects. We also offer free
online courses and mentoring.

We build AI projects such as:

-DAWIA (<https://dawia.es/>), The first official higher education initiative where AI
acts as instructors.

-FPIA (<https://fpia.es>), Helping higher education institutions become AI-First.

-LazaroAI (<https://lazaro.ai>), Preserving memories thrive and combating the
forgetting caused by neurodegenerative diseases.

-RefugeesLive (<https://refugees.live>), AI-powered tools to support refugee
integration.

-LearniaClub (<https://www.learniaclub.com/>), Educate Through Entertainment.

Also leading @Saturdaysai-com to unlock AI's potential in businesses.

30k+ students; 10 countries; +500 AI projects .. and growing.

Wanna join us?

Stealth

Manager of Artificial Intelligence

2022 - 2025 (3 years)

I have been involved in several projects, taking on various roles, including:

- > Architect, identifying agent use cases for a large financial institution.
- > Tech Lead, developing a GenAI platform for a major infrastructure company.
- > Manager, leading the development of agents for a professional services firm.
- > Architect, driving AI use cases for an aerospace and defense company.
- > Senior Engineer, building RAG systems for a large energy company.

Led cross-functional teams to architect and deliver AI-driven solutions including autonomous agents, RAG workflows, LLM fine-tuning and orchestration, aligning AI strategy with business value, privacy, and stakeholder communication
